

# Sanctify

**In a world where drugs, sex, and violence are always lingering right around the corner, American Classics is promoting something positive, and they are succeeding.** Releasing a proprietary line, Sanctify, they successfully blended fashion with religious imagery and messaging—a stylish, hip way to spread God's word.

Now the trend-setting Sanctify brand is available for licensing! The Sanctify T-shirt line is a hit at high end retail stores nationwide — such as Kitson, Macy's, Journeys, Buckle, and Bon Ton. Now your company can provide a smart, fashionable way for consumers to express their personal beliefs and make a positive difference in their lives.

The Sanctify program has expanded to include licensed headwear, bags, sleepwear, loungewear, jewelry, posters, calendars and footwear.

Have your company take part in an already-successful campaign to spread the Gospel to customers who have a passion for God and are proud to show it!
